DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim(s) 61-72, drawn to a method to produce glucosamine by culturing a microorganism transformed with a recombinant nucleic acid comprising a nucleic acid encoding glucosamine-6-phosphate synthase and a *lac* promoter, classified in class 435, subclass 84.
 - II. Claim(s) 73-77, drawn to a method to produce glucosamine by culturing a microorganism that has at least one genetic modification that increases activity of glucosamine-6-phosphate synthase and at least one additional genetic modification that increases activity of a phosphatase, classified in class 435, subclass 84.
 - III. Claim(s) 78- 80, drawn to a method to produce glucosamine by culturing a microorganism that has at least one genetic modification that increases activity of glucosamine-6-phosphate synthase, classified in class 435, subclass 84.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). The processes of Groups I-III are distinct both physically and functionally; require different process steps, reagents, and parameters; have different purposes; and produce different products.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
